

## **The Rules for the Admission Procedure and Conditions for Admission to Study for the Academic Year 2024/2025 in the Master's Programmes in English Language**

### **Field of Study**

N0788A270005 Innovation and Industrial Engineering

N0715A270018 Machines and Equipment Design

N0715A270016 Materials and Technology

### **Admission Requirements**

Successful completion of a Bachelor's degree programme or Master's degree programme at the Faculty of Mechanical Engineering or at another faculty with a similar specialisation<sup>1</sup> at such a level as to guarantee the fulfilment of the final profile of the graduate of the relevant follow-up study programme.

Successful completion of the entrance examination (unless waived by the dean).

The applicants must prove their knowledge of English at a level no lower than B1<sup>2</sup>.

### **The Number of Students Admitted**

The number of students who may be admitted in the academic year 2024/2025, is set by the Dean. Should more applicants meet the conditions of admission, the final decision about their admission to studies is based on the total amount of the points obtained.

### **The Entrance Examination**

written; in selected subjects of theoretical and applied basics<sup>3</sup> in the range of the subject matter taught at the Faculty of Mechanical Engineering of the Technical University of Liberec in Bachelor's degree programme "Mechanical Engineering". Applicants will be invited to sit the entrance examination.

---

<sup>1</sup> The applicant proves a foreign university degree obtained by graduation from a foreign university programme by providing:

- a proof of a general recognition of foreign university education in the Czech Republic in accordance with § 89 and 90 Act on universities, commonly a certified copy of a Decision recognizing the validity of the foreign secondary education in the Czech Republic together with a certified copy of a Recognition clause

- a foreign proof of foreign university education, which is in accordance with international obligations and equivalent without any official procedure in the Czech Republic

<sup>2</sup> Document proving the knowledge of English at level B1 according to *Common European Framework of Reference for Languages*. This condition does not apply to native speakers and graduates from secondary schools and universities who studied in English.

<sup>3</sup> Of mechanics, elasticity and strength, machine components, engineering technology and theory of materials.

Commentary:

- a. the results of the written examination are ranked from 0 to 200 points,
- b. for the successful completion of the admission procedure it is necessary to obtain at least 80 points,
- c. the applicant to whom the entrance examination is waived does not personally participate in the entrance examination and is placed in the order of candidates before those who have to pass the entrance examination,
- d. the applicant who obtains less than 80 points in the entrance examination has not fulfilled the conditions of the entrance examination and they will receive a decision about non-admission.

**Conditions for waiving the entrance exam**

- 1) The Dean may waive the entrance examination if the applicant has completed the Bachelor's degree programme "Mechanical Engineering" within the last three years, i.e. from the academic year 2020/2021, and if the applicant requests the waiver.
- 2) The Dean may waive the entrance examination at the request of the applicant in other exceptional cases after consultation with the guarantor of the relevant study programme.

**Final Provisions**

Submitting the application form on this website:

[https://stag.tul.cz/portal/studium/uchazec/?pc\\_lang=en](https://stag.tul.cz/portal/studium/uchazec/?pc_lang=en).

Additional mandatory particulars relating to the admission to study in accordance with § 49, par. 5, including a possible announcement of the next round of the entrance examination in case of unfulfilled capacity of the study program will be determined by the Dean at a term set by an act and published in the public section of the faculty website.

These rules were approved by the AS of the Faculty of Mechanical Engineering on 18 October 2023, see § 27 par. 1e) of the Act on Universities and they came into effect on 18 October 2023.
